Dear Neighbor,

I wanted to provide you with an update regarding the west tree line that separates your property from the Fremont Middle School (FMS) property. In my letter from April 2010 I shared with you that the Austrian pine trees were dying and that we would be replacing those pines with large spruce trees.

We are just starting our landscaping work on the new FMS site and on Thursday, September 1st the Austrian pine trees will be removed. In early fall the spruce trees will be planted. It is our intention to be good neighbors and we are attempting to keep the tree line intact.

Please feel free to call me at 419-334-5432 if you have any questions about the landscaping and/or about the FMS Project. Thank you.

Sincerely,

Traci McCaudy
