January 18, 2011

Dear Parents of Grade 5 Students,

As you may be aware, the new Fremont Middle School will be ready for occupancy approximately one year from today. We plan to move students in grades 6-8 to the new building once it is completed. The district has been carefully planning for this mid-year move to ensure that the children are comfortable with their new environment and that the educational process is not interrupted.

I will be sharing pertinent information with you and your children throughout the 2011 calendar year about the elementary to middle school transition and moving schedule. Everyone is very excited about the new Fremont Middle School and about sixth graders joining the middle school learning community.

If you have any questions, concerns or suggestions, please feel free to contact me at 419-334-5432 or superintendent@fremont.k12.oh.us. If you would like additional information about the construction phase of the building project or our FMS Transition Plan, please feel free to visit our web site at www.fremontschools.net. Thank you.

Sincerely,

Traci McCaudy
