

NCOESC Preschool Program

Integrated Preschool Program – Children who are 3 to 5 (not turning 6 before Aug. 1).

An integrated program is for children with special needs, including autism, as well as children who are typically developing. Research has shown that the earlier a child's needs are identified and he/she begins to receive help, the more progress he/ she can make in growth & development. The integrated program encourages children with & without special needs to develop relationships with the assistance of our qualified staff to foster equal learning opportunities for all the students.

If you have any questions please contact:
