BGSU College Tour!!!

All ACE and STRIVE students are invited to participate in our BGSU college tour on April 19th. During last year's tour, our students were provided with scholarship information. As a result two of our seniors received scholarships and are currently attending BGSU.

Students working on a group activity at our mixer

During the March mixer group activity students and mentors discussed barriers to education and how to overcome them and be successful. The students identified the following barriers to attending college: money, time, grades and transportation. Some ideas for overcoming those barriers were: applying for scholarships and grants, being involved in school, saving money, and staying positive. The students also listed the following ways to be successful in school and college: studying hard, attending classes, getting involved with school and at college, and not being afraid to ask a lot of questions.

Spring Has Sprung!!

Spring is a wonderful time of year, but it is also a time when students can become easily distracted. To end the year on a successful note, students need to eat a balanced diet and get enough rest. Some tips to help students strongly finish the year are: to keep up their attendance, complete and turn in their homework on time and study for tests. Good luck and have a wonderful rest of the year!

Our annual ACE Recognition and Awards Banquet will be held this year on May 17th at Ole Zim's. ACE students, mentors and parents are invited to attend. The ACE Mentoring Program will again be awarding scholarships to two students in the program who have applied and meet the requirements.
