

CHILD FIND:

Every child in this country is entitled to a free, public education. The law applies to handicapped children as well, regardless of their handicap, or the severity of the handicap.

Because of their handicaps, these children may be out of the community mainstream. Some times, especially in pre-school years, the child's problems or disability may not be clearly evident. If you have any reason to suspect that a problem exists ask your doctor to see your child.

Please call us if you suspect your child has a handicap. We can help – but we must first find the child. Fremont City Schools works collaboratively with the Help Me Grow program which assists families with early identification and services for children under the age of three. We also have a collaborative agreement with the Sandusky County DD early childhood and school-age programs provided through the School of Hope. Together, we will work to find the right services for each child.

TITLE VI-B:

Title VI-B funds are Federal allocations for the exclusive benefit of children with disabilities. Input as to how best to utilize these funds for students in Fremont City Schools is welcome. For more information or to share ideas please call the Director of Student Services at 419-334-5464.
