

## Lessons about apples

NOVEMBER 15, 2011

During October, Mrs. Warga's first-graders at Hayes Elementary School spent time learning about apples and how they grow. The students read and listened to many books about apples and went on a field trip to Bergman's Apple Orchard in Port Clinton. The class made its own apple pies and enjoyed them "a la mode." The children also learned about caring for others less fortunate by donating one of the pies to a local soup kitchen. / Submitted photo
