

# Campus Visitation

1. Call the college admissions office and schedule an official visit. Or go online to see when the college offers visitation days.
2. See the Senior Guidance Counselor for a permission slip at least two (2) days prior to your visit. Get the slip signed by your teachers and parents and return to the Senior Guidance Counselor at least one (1) day prior to your visit.
3. Have the second page signed by the college admissions representative at your visit.
4. When you return from your visit, take the portion with the college representative's signature on it to the attendance office.
