Sarah Watson: Intervention Specialist

Hello!

I hope you all had a great summer and start to the 2025-2026 school year.

My name is Miss Hoffman and I am your school counselor. I am excited to return to Atkinson Elementary for my second year as the school counselor. I am looking forward to another great year! My role as a school counselor is to help promote student growth through academic, career, and social-emotional development. Some key areas I can assist with include problem-solving, managing emotions, friendships, family life, future planning, school-related issues, and more.

Throughout the year, students will participate in activities that will help promote student well-being and focus on skill development. At the start of the year, we are learning all about respect and responsibility! Students will learn different ways to show respect and responsibility through their treatment of others and the actions they demonstrate.

I hope this information is helpful to you! If you have any questions about the counseling program, school-based counseling services, or if I can be of any assistance throughout the year, please don't hesitate to call or email.

Let's have a wonderful school year!
