From Mrs. Frey, our school nurse: February is Dental Health Month Below are some tips for keeping your child's teeth healthy:

- Our teeth help us eat, talk, and smile! Start good dental habits early to help keep your child's teeth healthy. You can do this by brushing and flossing and seeing the dentist regularly.
- Cleaning our teeth prevents plaque buildup, which is a sticky material made up of bacteria. Plaque buildup leads to cavities and gum disease.

**Pom-Pom REWARD**

We are thrilled to share that our students earned their January Pom-Pom reward for demonstrating positive behavior throughout the month! To celebrate this achievement, students participated in exciting Minute-to-Win-It games. It was a joy to see their enthusiasm and teamwork in action!
