FMS after-school program under way

JANUARY 10, 2013

FREMONT — Fremont Middle School’s after-school program offers academic intervention, art, music, nutrition and mentoring for students Monday through Thursday.

Students involved in the program arrive by 2:50 p.m., in the student union and are given a snack before beginning their academic work for the day.

All tutors are teachers and work with the FMS staff to ensure the students are getting the specific academic help they need.

After an hour of tutoring, students are able to participate in various art, music and physical activities all under the watchful eyes of the WSOS staff and mentors.

If you would like your student to be involved in the program, contact Lucille Phillips at WSOS at 419-333-4007.
